

See It All. Track It All.™

Discover how morgues and medical examiners are managing today's challenges.

Speed up workflows and improve visibility with our affordable, turnkey RFID solution.

REAL-TIME RFID DECEDENT TRACKING SYSTEM

Persistent Industry Challenges

Our Real-Time RFID System

Staff shortages

Reduces time consuming tasks

Higher case volume

Automated touchless tracking

Infectious Cases

Visual cues prevent mishandling

Opioid crisis

Faster recording and reporting

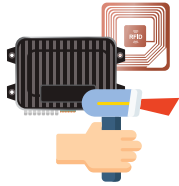

Compliance and PPE

See It All. Track It All.™

REAL-TIME RFID DECEDENT TRACKING SYSTEM

Touch Free RFID

- Track every decedent at every stage
- Each tag is unique, with detailed data
- RFID enables at a distance scanning

Auto Record Every Stage

- Garage bay, driver pickup and delivery
- Storage rooms, freezers, coolers
- Main morgue, exam rooms, biohazard

Real-time Visual Displays

- Large screen monitor at each station
- Alerts prevent errors and mishandling
- Individual case and aggregate data

Trusted and Affordable

- Built for cold, moist, chemical environment
- Experienced, single source provider
- Software, hardware, supplies, support

Automated Traceability

- Easier compliance documentation
- Secure chain of custody
- Communicable disease tracking

Customizable and Cloud-based

- Secure role-based access control
- Robust reporting, track other assets
- Integrate with other systems
